

Regatta® Exhibit System
Frame and Fabric Display

Available as a 10 inline or convenient tabletop display, Regatta is a perfect marketing tool for your sales force.

Lightweight Frame & Fabric Display

Regattas light weight frame sets up without tools and has connecting shock cords for easy assembly. Fabric graphic cover simply slips over the frame and zips closed on one side. With seams around perimeter, you get continuous graphics.

Single-Case Portability

A full 10 (3 m) Regatta display frame, graphic cover and lights fits in one hard-sided, protective case that has wheels for easy transport.

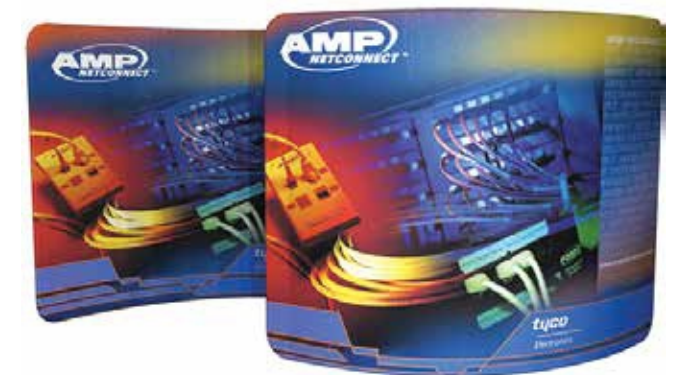

Easy, No-Tools Installation

Sturdy shock-corded frame sets up in minutes without tools. The frame is painted silver to keep graphic cover clean.

Double-Sided Graphics

Fabric graphics are available for both front and back. Since graphics are joined around the perimeter, you get full seamless murals on both sides.

Quality Skyline Fabric Graphics

Regatta graphics are brilliant and durable. Skyline's proprietary Superfecta® stretch-knit fabric is wrinkle resistant so your brand always looks great. Graphics are easy to change out when its time to update your look or message.

Lighting Options

Regatta offers halogen or energy-saving CMH lights to highlight your graphics.

Optional Case Table

Regattas hard oval case can be transformed into a stylish table.

Stylish Brand Presentation

Regatta gives your brand a big look with an easy-to-use portable system.
