Skyline Tabletop Displays  
Big Impact In Smaller Spaces

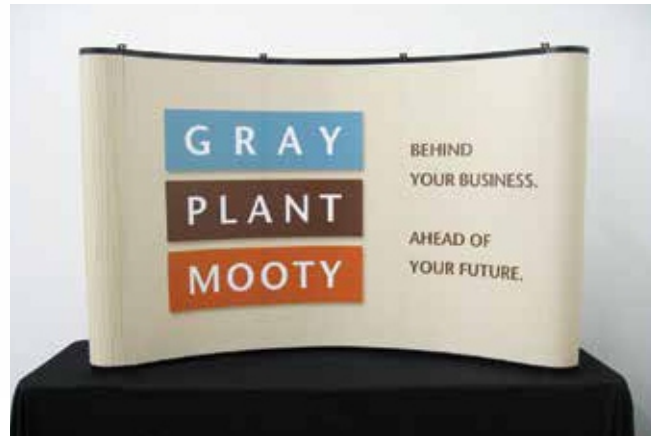

*Skyline*  
**HELPING  
THE WORLD  
TRADE.**

## Exhibit With Ease and Convenience

In smaller spaces, tabletops are an easy way to exhibit. Skyline tabletop displays provide a powerful exhibiting presence with systems that are portable and convenient! Tabletops are great for trade shows, recruiting fairs, retail spaces, lobbies and more.

## Display Your Brand In Style

When you're exhibiting, your display is your image. Don't let wear and tear represent your brand. You always look great with Skyline. We produce the highest quality displays and graphics in the industry.

## Big Graphic Presence

Big, bold images command attention. Skyline designers can give your brand a powerful presence while you maintain the convenience of a tabletop.

## Multiple Unit, Fleet Program

Consider multiple tabletop displays for your organization. Your sales force receives a powerful marketing tool for trade shows and events while you maintain brand consistency. Skyline can even manage your exhibit assets including shipping, storage, repairs and more.

## WindScape® Inflatable Tabletop Display

Skyline's revolutionary air-powered exhibit system makes exhibiting easier than ever. WindScape is extremely lightweight and packs ultra small for easy transportation. WindScape fabric graphics have brilliant color and come pre-attached for easy installation.

## Durable, Compact, Lightweight

WindScape frames have been adapted from technology used in sporting and military industries. In all applications, the technology has proven durable and reliable. The WindScape tabletop display along with inflator, battery and hose pack in a backpack and weigh less than 13 lbs. (5.9 kg).

## Single Push Installation

Skyline's inflator runs on electricity or rechargeable battery pack and shuts off automatically when proper inflation has been reached. **A WindScape tabletop unit inflates in about 3 minutes!**

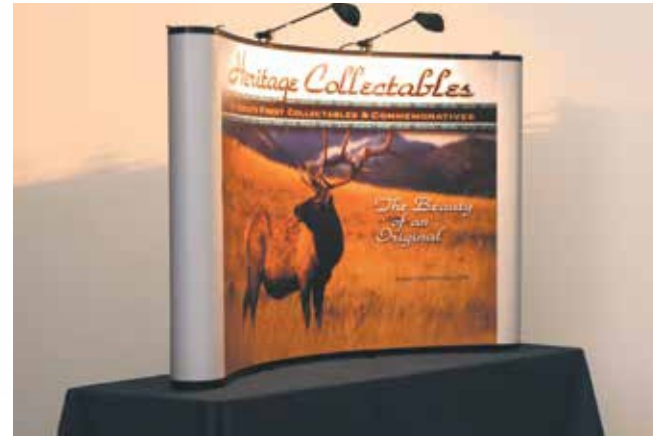

# Skyline Tabletop Systems

Skyline has designed several tabletop systems that are easy to transport, quick to install and are built with the **highest quality and durability** to proudly represent your brand and give you the very best value.

## Mirage® Pop-Up Displays

The very best pop-up available! Mirages fiberglass frame wont dent or warp and is more durable than aluminum. Mirage is easy to set up, ship and transport. Frame and channels have a lifetime warranty.

**It made a terrific impact. The Mirage paid for itself at our first show.** *Heritage Collectables*

## Exalt® Banner Stand

The **first** retractable banner stand capable of converting from linear to a curved configuration with the simple flip of levers. Skyline's unique panel exchange system allows you to update or change your graphic to target specific audiences.

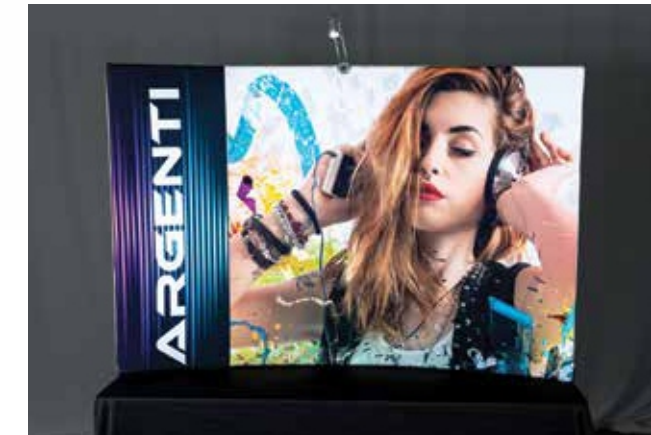

## Banner Stand 3000-R

You'll be exhibiting in moments. Skyline's shock corded support pole and retractable graphic panel set up in a breeze. Skyline banner stands can be designed for use at full height and as a tabletop. The 48 wide unit works best for tabletop applications. Graphics are easy to change when its time to update your message even on the show floor.

## Frame & Fabric Display Systems

**Regatta® Display System:** Sturdy steel frame sets up in minutes without tools and is shock corded for easy assembly. Regatta front and back graphics are sewn together like a pillowcase, which means no seams showing through your graphics so your brand always looks great. Frame is painted silver to keep graphic cover clean.

**Invita Display System:** Vibrant fabric graphics highlight your brand. Single-sided graphics feature a black fabric back to eliminate frame shadows. Double-sided graphics give you the opportunity to customize your message for different audiences. The pillowcase-style graphic slips over the aluminum frame and zips closed at the bottom.

## Graphic Table Throws

Complement your display with additional brand colors and graphics. Skyline Throws are available in 36 solid colors or fully printed custom graphics. Custom graphic runner, placed on a solid throw, is easier to change than an entire throw.

Skyline throws are available in 6 (1.8 m) and 8 (2.4 m) lengths, reach the floor on all sides, are wrinkle resistant and machine washable.

## Convenient, Protective Cases

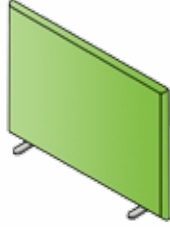

Skyline tabletop displays pack in a variety of protective cases, depending on the specific system. Cases range from soft-sided carrying cases with shoulder straps to hard-sided cases with handles and wheels for easy transport.

# Specifications

## WindScape® Inflatable

**6 x 52**  
(183 x 132 cm)  
10.2 lbs. (4.6 kg)

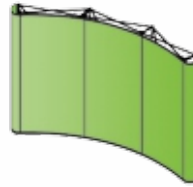

**6 x 52**  
(183 x 132 cm)
